CONTRIBUTIONS

The editor welcomes contributions, and an author's
template can be found under the Submissions link on
the website.

The aim of *Landscape Review* is to showcase the
relationship between research and professional practice
in the field of landscape architecture. It offers a forum for
scholarly writing and critique on a wide range of topics
that particularly impact Oceania and, more broadly, the
rest of the world.

We encourage articles that further develop research
ideas and findings from previously published peer-
reviewed sources, critiques or reflections, to analyse
and synthesise them for impact within professional
practice and/or academic research.

For further information on the types of submission,
please go to [https://journals.lincoln.ac.nz/index.php/lr/
about/submissions](https://journals.lincoln.ac.nz/index.php/lr/about/submissions).
